

## RAID Level 3

---

### Information

#### PURPOSE OF THE COURSE

This course is designed to train students in the safe use and technology of rebreather diving with no decompression, up to 1.2 PpO<sub>2</sub> and to a maximum depth of 40 metres.

#### PREREQUISITES

- ☐ To be minimum of 16 years old or subject to the Rebreather Specialty programme.
  - ☐ To be certified diver for at least 3 months.
  - ☐ Completed and passed Level 3 academic section Quick Quiz and Exam.
- To start the programme, have a minimum of 15 hours logged in water time (confined and openwater) on a rebreather.
- ☐ Have a RAID Rebreather Level 2 or equivalent certification from a recognised training agency and/or complete, to the satisfaction of the instructor, the minimum in water rebreather Level 2 skills. The instructor is to evaluate these skills.
  - ☐ RAID rebreather Specialty certification or equivalent certification from a recognised training agency **OR** Complete and pass, in addition to the core rebreather Level 3 training, the academic Quick Quiz and Exam sections of a RAID Rebreather Specialty programme.
  - ☐ To submit Deep (limited depth 30m/66 ft), Night/Restricted Visibility, Navigation, Search and Discovery certificate and/or equivalent.
  - ☐ Submit a current Rescue Breathing/CPR Training and Oxygen Provider certificate (DAN/equivalent). Documented proof of prerequisite requirements needs to be presented to the Dive Centre for approval prior to any in water training.

#### OPEN CIRCUIT CROSS OVER TO REBREATHER

- ☐ To be a minimum of 16 years old.
- ☐ To be certified for at least 6 months.
- ☐ To start the programme: Open Circuit minimum 25 logged hours underwater or 50 logged dives underwater using open circuit, of which 7 logged hours or 15 logged dives shall be whilst diving with Nitrox and 5 logged hours or 10 logged dives are between 27-40 metres.
- ☐ Submit an open circuit RAID Level 2 or higher certification from a recognised training agency.
- ☐ To submit, Night/Restricted Visibility, Navigation and Nitrox certification from a recognised training agency.
- ☐ At the instructor's discretion complete the Search and Discovery navigation skills as detailed in the RAID Level 2 programme.
- ☐ Submit a current Rescue Breathing/CPR Training and Oxygen Provider certificate (DAN/equivalent).
- ☐ Comply with the prerequisites of the rebreather (to be used) Speciality programme.
- ☐ Documented proof of prerequisite requirements needs to be presented to the Dive Centre for approval prior to any in water training.
- ☐ Complete and pass on-line RAID Rebreather academic core rebreather Level 3.
- ☐ Complete and pass the Quick Quiz and Exam of the academic section of a rebreather Speciality programmes.
- ☐ Documented proof of prerequisite requirements needs to be presented to the Dive Centre for approval prior to any in water training.

## COURSE CONTENT

On-line e-learning academic presentations, quizzes, exam and practical skills as detailed. In water sessions as detailed, totalling a minimum 6 hours logged underwater using a registered rebreather whilst carrying a side sling alternate air source, or additional time as required in the rebreather specialty programme Open Circuit cross over to Rebreather skill development shall have additional **2 hours logged** confined underwater training in addition to the core rebreather Level 3 and the unit Specific rebreather individual minimum specified logged hours.

The student will be required to complete a quick written quiz with the Instructor prior to the commencement of any in water training.

## IN WATER TRAINING

### Confined Water

- ☐ If applicable Rebreather Specialty programme - confined water skills as detailed.
- ☐ Review personal diving skills
- ☐ Stamina and Waterman ship skills
- ☐ Rebreather - Confined water skills as detailed.
- ☐ Open Circuit cross over - Confined water skills as detailed.

Open Water: Four qualifying open water dives: If applicable Rebreather Specialty programme – open water skills as detailed

- ☐ Scenario 1
- ☐ Scenario 2
- ☐ Scenario 3
- ☐ Deep - Limited 40 metres.

## CERTIFICATION

The minimum logged hours, as detailed have been completed. All confined and /or open water skills have been acknowledged and accepted on-line (through the RAID web site) as mastered by the certifying RAID instructor and student. The RAID Dive Centre has confirmed Level 3 Rescue Rebreather with open circuit and nitrox certification on-line through the RAID web site.
